

Sl. No	Name of Institution	Course	Topic
1.	Rajiv Gandhi Institute of Technology, Kottayam	M.Tech. TE (6 students)	Pavement material testing, mix design of SMA and other transportation related studies
2.	Toch Institute of Science & Technology	B.Tech. CE (6 students)	Pavement material testing, and Performance tests on SMA and BC mix
3.	Visvesvaraya National Institute of Technology	M.Tech. TE (2 students)	Performance tests on SMA and BC mix
4.	MVJ College of Engineering	M.Tech. TE (1 student)	Modified thickness for coir geotextile reinforced LSGD roads of Kasargode district, Kerala
5.	NIT Tiruchirappalli	M.Tech. TE (1 student)	Pavement materials testing and performance tests on bituminous mixes
6.	NITK Surathkal	M Tech. GE (2 students)	Technical documents on Fortifying Roads Against Rains, Stability criteria for soils under seepage
7.	Mar Ephraem College of Engineering and Technology	B. Tech.CE (4 Students)	Investigation report for BBD survey, Traffic Survey and Axle Load Survey in the PMGSY III Kottoor–Vandippetta road in Ernakulam district
8.	Saintgits College of Engineering	B.Tech CE	Laboratory testing of pavement materials for the FDR projects
9.	Jyothi Engineering College Cheruthuruthy	M.Tech TE	Carbon Neutral Kattakada – Ring road identification and calculation of carbon emission from vehicles plying in the legislature.
10.	Mar Baselios College of Engineering and technology	B.Tech CE (4 students)	Unconfined Compressive Strength of CLSM mix with Aggregates and POFA
11.	Vellore Institute of Technology, Chennai	B.Tech CE (2 students)	Testing the Durability of Stabilised MH type soil samples for pavement Design
12.	NIT Calicut	M.Tech GE (3 students)	Plasticity characteristics of various soil
13.	CET	M.Tech GE (1 student)	Slope stability analysis using Midas and Geoslope
14.	NIT Tiruchirappalli	M.Tech. TE (1 student)	Evaluation of coir geocell reinforcement in pavement bases with natural aggregate, construction and demolition waste and reclaimed asphalt pavement
